

CHICKEN WIRE HEART DIY

Step by Step Guide

What You'll Need:

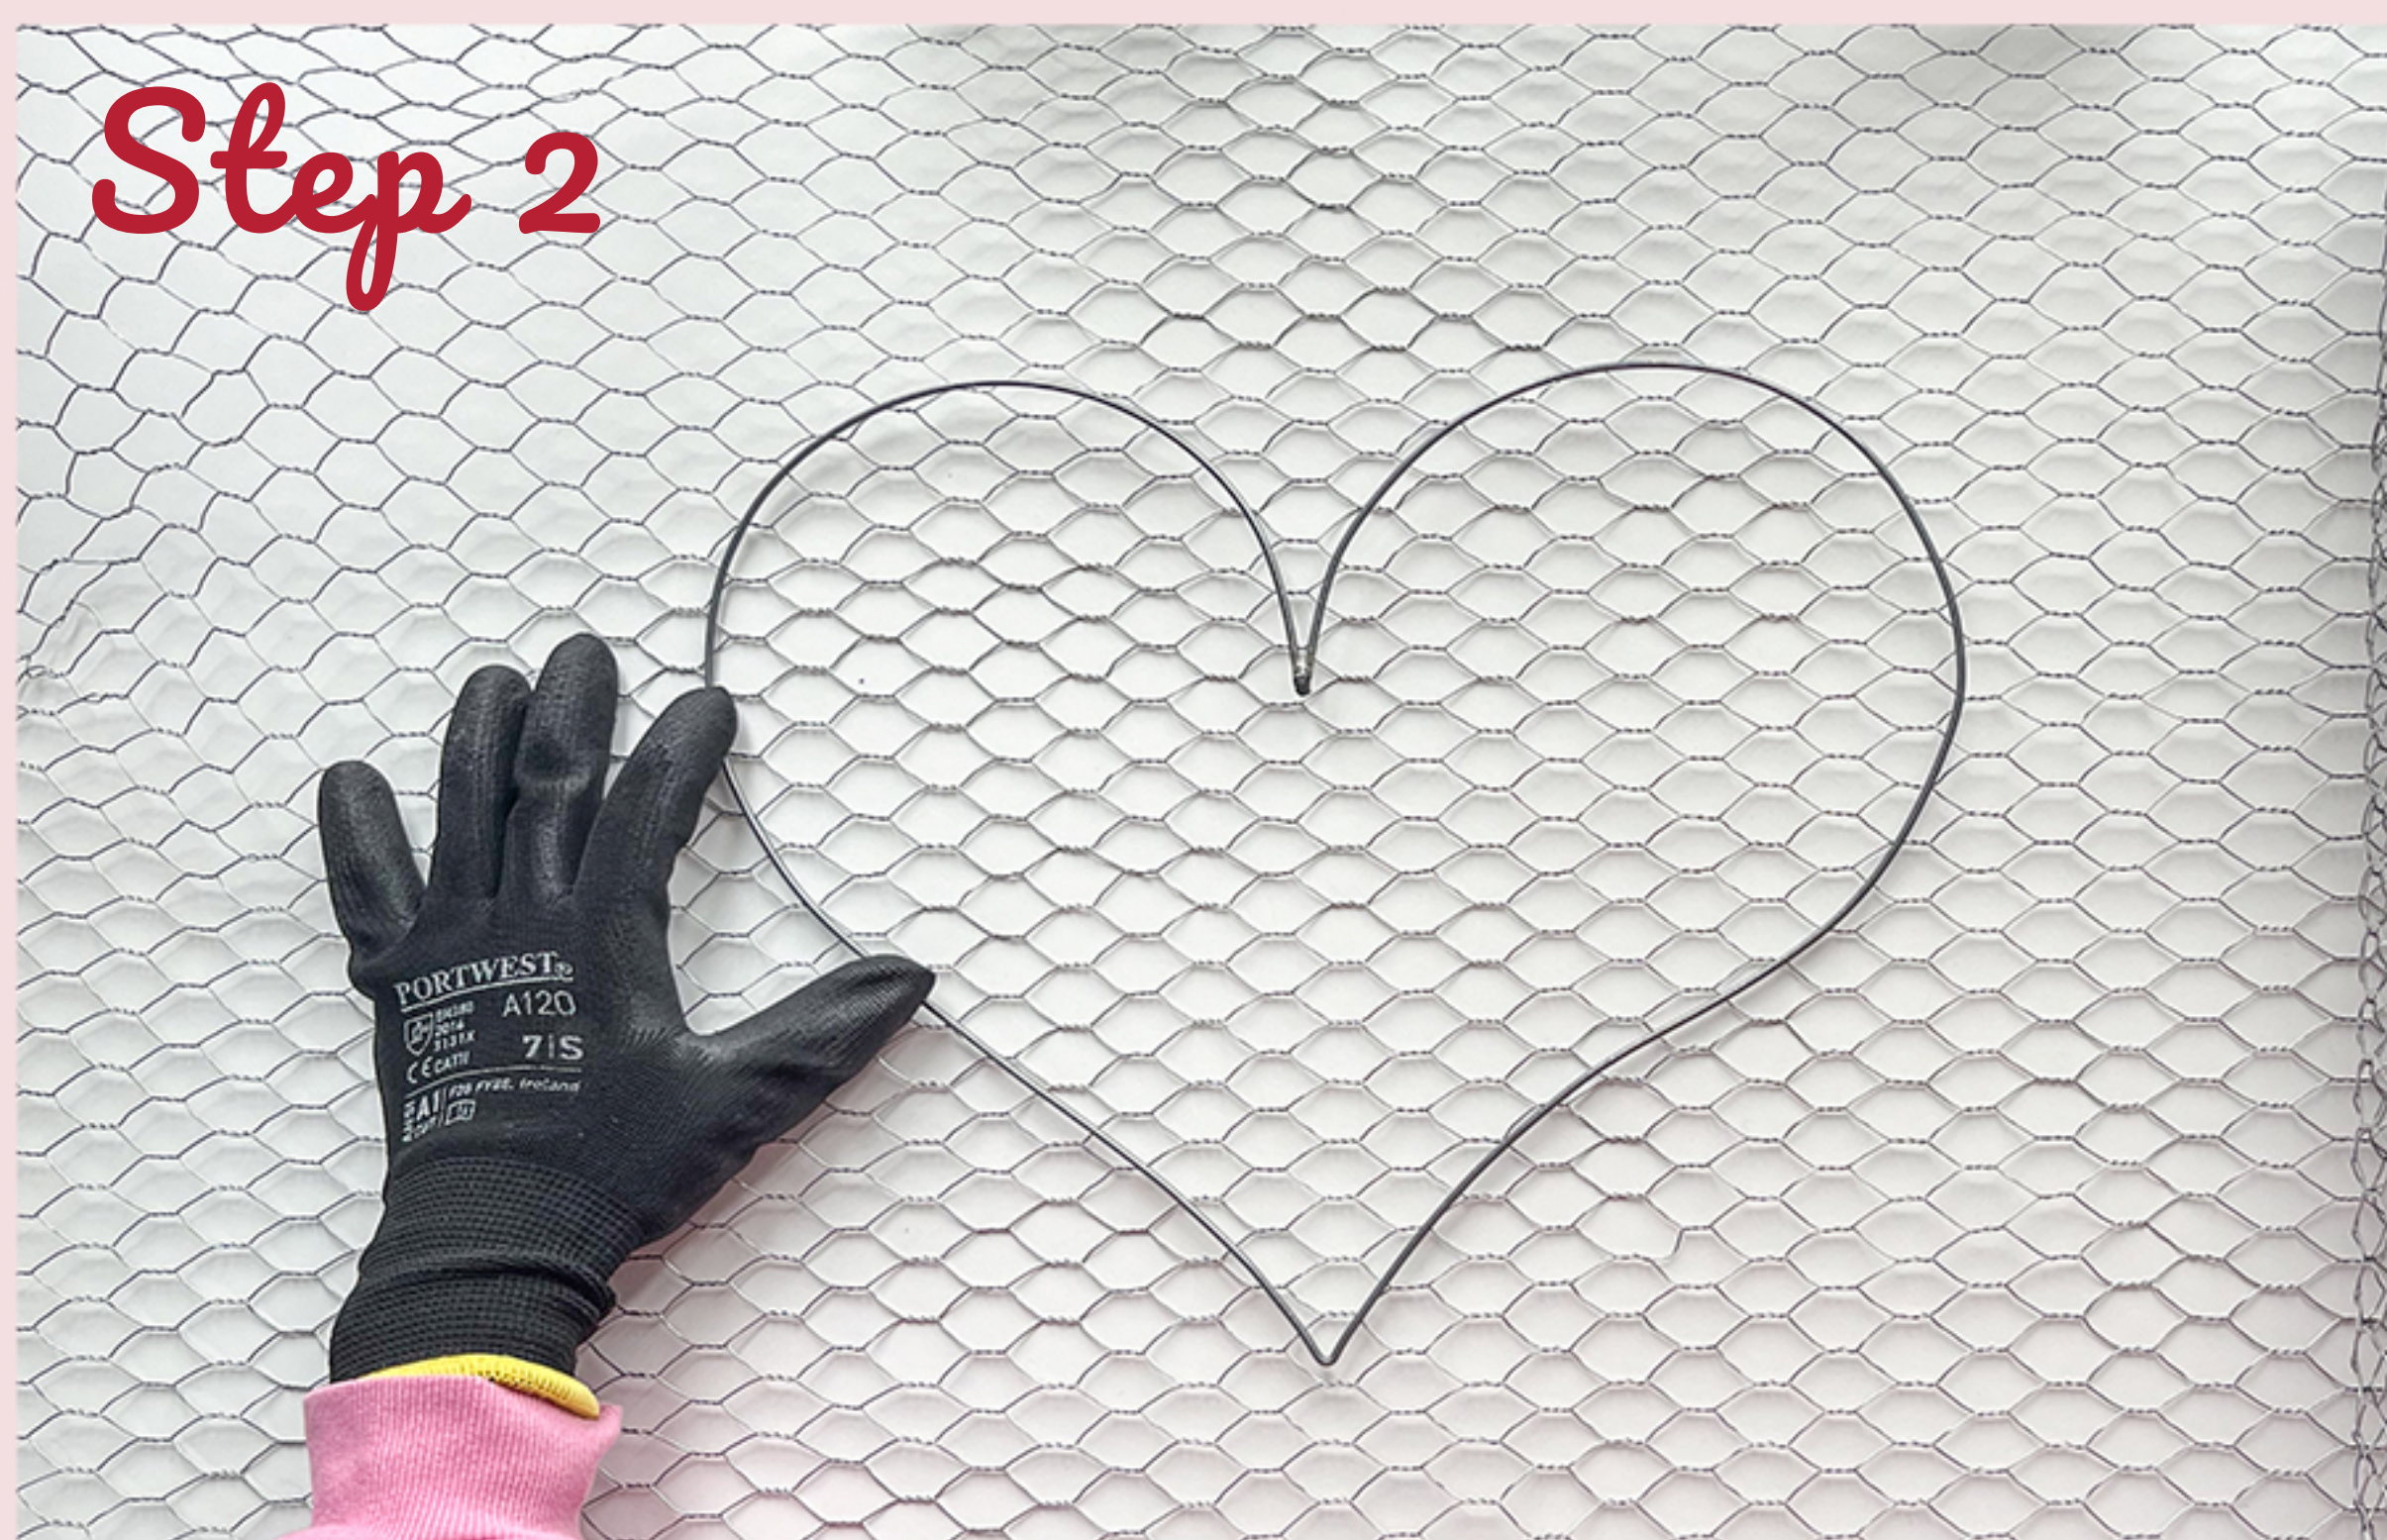

- Protective Gloves
- Pliers
- Wire cutter
- Glue gun
- Chicken wire
- Tensioning wire
- Artificial flowers
- Bow

Step 1

Prepare your supplies.
If you don't have a store-bought heart frame, you can create one by bending some tensioning wire into a heart shape.

Step 2

Roll out your chicken wire and measure it to the shape

Step 3

Cut around the shape using wire cutters.
It's best to leave approximately 2 centimetres of chicken wire on the sides.

Step 4

Once you cut out your shape, discard the excess chicken wire.
Place the chicken wire under the shape.

Step 5

Use the pliers to wrap the wire around the edges. Twist the pieces of wire over the frame, securing it.

Step 6

Once you finish wrapping the wire, your heart should look like this.

Step 7

Use a glue gun to attach artificial flowers, bows or other decorations to your taste.

Step 8

Enjoy your Valentine's wreath and feel free to hang it on your door!
